MID-NORTH RESOURCES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED MARCH 31, 2002
(Unaudited - See Notice to Reader)

1. NATURE OF OPERATIONS AND FINANCIAL CONDITION OF THE COMPANY

Mid-North Resources Limited (the Company) is a TSX Venture Exchange listed public company. The Company currently has interests in mining claims situated in the Provinces of Manitoba and Saskatchewan and the State of Nevada and intends to maintain and explore its mining claims directly and through joint ventures. These unaudited financial statements for the first quarter ended March 31, 2002 have been prepared in accordance with Canadian generally accepted accounting principles applicable to a going concern. The ability of the Company to continue as a going concern is dependent on it raising the required capital to proceed with its operational plans and subsequently obtain profitable operations. These financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

2. SIGNIFICANT ACCOUNTING POLICIES

These unaudited financial statements should be read in conjunction with the audited financial statements for the year ended December 31, 2001.

In the opinion of management, all adjustments considered necessary for fair presentation have been included in these financial statements. Operating results for the three months ended March 31, 2002 may not be indicative of the results that may be expected for the full year ending December 31, 2002.

The Company follows the same accounting policies as the December 31, 2001 year ended audited financial statements. The significant accounting policies are as follows:

Financial Instruments

Financial instruments of the Company consist mainly of cash, accounts payable, promissory demand note payable and convertible notes payable. As at March 31, 2002, there are no significant differences between the carrying values of these amounts and their estimated market values.

2. **SIGNIFICANT ACCOUNTING POLICIES CON'T.**

Capital Assets

Capital assets are stated at cost less accumulated amortization. Amortization is recorded on the declining balance basis at rates designed to amortize the cost of the capital assets over their estimated useful lives, based on the following annual rates:

Equipment	20%
Computer equipment	30%
Furniture and fixture	20%

Mining Claims and Deferred Expenses

Mining claims and deferred expenses are valued at cost less option payments received.

Deferred expenses relate to exploration of mining claims and will be deferred until the properties are brought into production, at which time they will be amortized on a unit of production basis or until the properties are sold or abandoned, at which time the asset will be written off.

Administrative expenses which are considered to be wholly related to the acquisition and exploration of properties have been capitalized as part of deferred costs.

Recovery of deferred expenses is contingent upon either the Company's identifying mineral reserves in commercial quantities and bringing such reserves into profitable production or the profitable disposition of mineral leases.

Use of Estimates

The preparation of financial statements, in conformity with Canadian generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of the revenue and expenses during the reporting period. Actual results could differ from those estimated.
